Dear Sir;

Our Michigan Constitution as well as the Constitution of the United States makes it very clear that judges are not to make the laws but rather to interpret the law. So why is the Michigan Supreme Court even considering the steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial ?

It seems Michigan and the Michigan Supreme Court are being used as tools of the asbestos industry and big business to deny working people their constitutional right to jury trials when harmed by corporate misconduct

We are opposed to this constitutional, illegal and politically motivated effort to deny us and others of our right to trial by jury
